# Magnificent Tigers

To celebrate the sixth anniversary of the "International Tigers Day", Mintage World has launched a docudrama on the history of the various stamps, coins and notes from the world featuring the magnificent tigers. Not many people know that tiger is not only the national animal of India but also of many other countries like Bangladesh, South Korea, Malaysia. The Mintage World came up with the initiative to apprise people of the omnipresent tigers in diverse cultures across the world.

"There are so many coins, stamps and notes that have

been launched by respective countries from all over the world that features the animal. They have also been mascots for sports events not only in India but in other countries as well, be it

Olympics or Summer games.

Sadly, many species of tigers have become defunct in India due to poaching. We want to educate people about the dominating presence of tigers in different cultures in an entertaining and a lucid way," said Vivek Kottian of Mintage World.

## VIVA VINTAGE!

www.mintageworld.com : is the World's 1st online museum for Vintage Coins, Stamps and Currency notes, in the near future they will launch many docudramas based on global historical dates, events and personalities

The docudrama was launched yesterday and is available for the audience on [www.mintageworld.com](http://www.mintageworld.com) Under the expertise of Rajat

Agrawal, the Creative head of Rustic Postbox, the docudrama aims to create empathy and awareness towards the majestic beast.
